

**INFORMATION REQUEST**  
**4105 WHITAKER AVE., PHILADELPHIA, PA 19124**

As part of a Phase I Site Assessment (ESA) and planned property transfer, Aquaterra is requesting information regarding environmental issues relative to the property at the following address:

**4105 Whitaker Ave., Philadelphia, PA 19124**

The property was a PCB treatment, storage, disposal (TSD) facility that is undergoing closure. Operations were conducted by Emerald Transformer, Clean Harbors, Safety Kleen, Laidlaw, PPM Inc., and others. As part of the potential sale, it is important to evaluate known and potential impacts and evaluate the status of facility closure.

Records sought include all environmental records pertaining to the property, including but not limited to plans, permits, applications, correspondence, reports, memos, notices of violations regarding underground storage tanks (USTs), aboveground storage tanks (ASTs), NPDES Permits, operating permits, reports or correspondence relating to Brownfields or hazardous waste sites, air permits, groundwater contamination, releases of hazardous materials, waste management, inspections, etc.

Please include any records regarding: PCB storage, disposal, or treatment; any records regarding releases, investigations, or cleanup of PCBs at the property; any records (plans, permits, correspondence, reports, etc.) regarding closure of PCB TSD facility. **Please provide contact information to discuss the closure status.**

---

In addition, please provide information regarding the following issues identified by others previously:
